

## SMARTAQUA STAKEHOLDER ADVISORY GROUP TERMS OF REFERENCE

---

### Mission

The Stakeholder Advisory Group provides advice on overall direction and specific issues of the SMARTAQUA operation.

### Responsibilities

The Stakeholder Advisory Group has the following responsibilities:

- Receive reports on the progress of the Operation
- Provide advice on priorities
- Identify opportunities for increasing the economic impact of the Operation
- Advise on linkages with other activities taking place in the region with possibility for collaboration
- Contribute to the marketing strategy for the Operation
- Advise on project sustainability possibilities

### Composition

The Group consists of the Principal Investigator, the Project Manager, the Strategic Technology Manager and the following members representing the three work packages and the different strands of the operation:

WP1 - Non-food fish products.

Cleaner fish - **Daniel Phillips** (Ocean Matters)

Fish for research – **Eric Roderick** (FishGen)

Fish for the aquarium trade – **Paul Tapley** (Maidenhead Aquatics)

WP2 - Algal-based aquafeeds and nutraceuticals.

**Joe McDonald** – Varicon Aqua

WP3 - Knowledge Exchange Strategy through Adaptive Smart Specialisation

**Donna Page** (Milford Haven Port Authority)

**James Fox-Davies** (360 Aquaculture)

### Meetings

The Stakeholder Advisory Group meets bi-annually, with a representative also attending the Programme Board.
