

SMARTAQUA

Stakeholder Advisory Group

Terms of Reference

MISSION

The Stakeholder Advisory Group provides advice on overall direction and specific issues of the SMARTAQUA operation.

Meetings

The Stakeholder Advisory Group meets bi-annually, with a representative also attending the Programme Board.

Responsibilities

The Stakeholder Advisory Group has the following responsibilities:

- Receive reports on the progress of the Operation
- Provide advice on priorities
- Identify opportunities for increasing the economic impact of the Operation
- Advise on linkages with other activities taking place in the region with possibility for collaboration
- Contribute to the marketing strategy for the Operation
- Advise on project sustainability possibilities

Composition

The Group consists of the Principal Investigator, the Project Manager, the Strategic Technology Manager and the following members representing the three work packages and the different strands of the operation:

WP1 - Non-food fish products

Cleaner fish - Daniel Phillips (Ocean Matters); Gus Galloway (The Cleaner Fish Company)

Fish for research – Eric Roderick (FishGen)

Fish for the aquarium trade – Max Gear (Maidenhead Aquatics)

WP2 - Algal-based aquafeeds and nutraceuticals

Joe McDonald – (Varicon Aqua)

Amy Johnson – (Chromatrap)

WP3 - Knowledge Exchange Strategy through Adaptive Smart Specialisation

Donna Page (Milford Haven Port Authority)

James Fox-Davies (360 Aquaculture)
